

CROWD CONTROL BARRIER GATE, DOUBLE ENTRY

Double-entry crowd control gate, part of our Crowd Management Entry Solutions, ensures smooth crowd flow and secure access at large events.

SKU: 1002354 | **Categories:** [Crowd Management Entry Solutions](#)

PRODUCT DESCRIPTION

The Crowd Control Barrier Gate, Double Entry, is a vital component of our Crowd Management Entry Solutions, designed to efficiently manage large crowds at events such as concerts, sports events, and festivals. This gate system allows for quick assembly, directing attendees through organized entry and exit points.

Made from durable barrier panels, the gate consists of three barrier panels, two base plates, and two doors, making it ideal for areas with low to medium crowd pressure. The simple and robust design ensures that crowds are managed effectively, and the gate can easily integrate with additional barrier sections for expanded entry systems.

The Double Entry Gate is perfect for event organizers looking for reliable solutions to manage high volumes of foot traffic with safety and efficiency in mind.
