

BLACK LINE 5-CHANNEL MOBILITY ACCESS CABLE RAMP

The Black Line 5-Channel Mobility Access Cable Ramp offers durable, ADA-compliant access for pedestrians and low-volume vehicles, with a modular, easy-to-store design and high-visibility black and red coloring.

SKU: 1012427 | **Categories:** [Cable Ramps and Protectors](#)

PRODUCT DESCRIPTION

The Black Line 5-Channel Mobility Access Cable Ramp is a versatile, high-quality solution for safe pedestrian and low-volume vehicular access over cables and hoses. This modular ramp features a two-piece design that allows for easy storage and portability, making it ideal for events, worksites, and public spaces requiring quick setup and takedown. ADA-compliant, the ramp ensures safe mobility access, particularly suited for wheelchair users and those with reduced mobility.

With five channels, this ramp accommodates multiple cables or hoses while maintaining a stable, accessible pathway. Each channel has an approximate width of 1.3 inches and a height of 0.75 inches, with one channel measuring slightly larger at 1.46 inches wide. Its durable black lid and red side ramps offer high visibility, promoting safety in busy environments.

Supporting a maximum axle load of 10,500 pounds, this ramp performs dependably under light vehicle traffic. Compatible with previous single-piece versions, the Black Line 5-Channel Mobility Access Cable Ramp combines safety, convenience, and flexibility.
