

MODULAR RED FLOOR 5-CHANNEL ASSEMBLY CABLE RAMP

The Modular Red Floor 5-Channel Cable Ramp with standard ramps offers heavy-duty protection for cables in high-traffic areas, ensuring safe passage for vehicles and pedestrians.

SKU: N/A | **Categories:** [Cable Ramps and Protectors](#)

PRODUCT DESCRIPTION

The Modular Red Floor 5-Channel Cable Ramp with standard ramps is designed to deliver robust cable protection in demanding, high-traffic environments. Equipped with five channels—four measuring approximately 1.3 inches wide and one central channel at 1.65 inches wide—this ramp provides ample space to secure essential cables and hoses. Built for durability, it can withstand a maximum axle load of 20,141 pounds, making it suitable for both vehicular and pedestrian traffic.

This modular center ramp features standard ramps on each side for smooth access, allowing for a continuous, flat surface that accommodates extended cable runs. The quick-connect design ensures easy setup and removal, providing dependable cable protection in any environment. Ideal for public events, construction sites, and industrial settings, the Modular Red Floor 5-Channel Cable Ramp with standard ramps combines safety, convenience, and heavy-duty performance.

TECHNICAL INFORMATION

Weight	28 lbs
Dimensions	35.83 × 21.02 × 1.89 in
Channel Size	(4 channels) approximately 1.3 in (W) × 1.22 in (H), (1 channel) 1.65 in (W) × 1.22 in (H)
Channels	5
Weight Capacity	Suitable for high-volume vehicular and pedestrian traffic
Max Load per Axle	20,141 lbs at 68°F
Connector Type	Large Dog Bone Connectors for secure, modular connections
Special Capacity	Designed to protect multiple cables with high visibility for enhanced safety
