

MODULAR RED FLOOR 5-CHANNEL CENTER CABLE RAMP

Heavy-duty 5-channel center cable ramp for high-volume vehicular and pedestrian traffic.

SKU: 1012419 | **Categories:** [Cable Ramps and Protectors](#)

PRODUCT DESCRIPTION

The Modular Red Floor 5-Channel Center Cable Ramp is designed for use in high-traffic areas, providing superior protection for cables and hoses. This heavy-duty center piece connects multiple ramps together, creating a flat, secure surface that can accommodate both vehicles and pedestrians. With five channels, it allows safe passage over cables while preventing damage in even the busiest environments.

Built to withstand heavy loads, this center piece has a maximum load per axle of 20,149 pounds and features durable construction ideal for event venues and industrial settings. It is compatible with both standard ramps and wheelchair-access ramps, ensuring ADA compliance and safe access for all.

The modular design allows for easy assembly and extension to protect multiple cables, while the high-density material guarantees durability in demanding conditions. With its compact size and lightweight build, the Modular Red Floor 5-Channel Center Cable Ramp offers an efficient, reliable solution for protecting your cables in heavy-traffic areas.

TECHNICAL INFORMATION

Weight	16.09 lbs
