

MODULAR RED FLOOR WHEELCHAIR CABLE RAMP, FEMALE

ADA-compliant wheelchair ramps designed for safe and accessible crossings with the Red Floor 5 Channel Cable Ramps.

SKU: 1012423 | **Categories:** [Cable Ramps and Protectors](#)

PRODUCT DESCRIPTION

The Red Floor Wheelchair Ramps, available in both male and female versions, are designed to provide safe, ADA-compliant access for wheelchair users, enabling smooth and secure crossings over cable ramps in busy areas. These ramps are compatible with the Red Floor 3 and 5 Channel Center Cable Ramps, offering an accessible solution for events, construction sites, and industrial settings.

Constructed from heavy-duty materials, these ramps withstand the same high loads as the cable ramps, ensuring stability for both pedestrian and vehicle crossings. The modular design simplifies installation, allowing the ramps to integrate seamlessly with center cable ramps to create a complete, accessible mobility solution for your event or worksite.
